The Chance of Your Life

To Buy Some Good City Property

I have the J. D. Harris property, located south of the Government building. Has large lot, 12-room dwelling, full two-story and well built. You can live in this and rent enough rooms to roomers to make your living. It has a two-story store house, art and music room also; good stable and a fine well of extra good water; concrete walks on the west side; fine shade east on city school grounds. In fact, this property will make you money as an investment and grow in value. It all rents for \$47.00 a month. The Government lot sold for \$7,000 and I can sell you lot, buildings and all for \$5,000 if you will act quick, and will sell it for half cash and balance one, two and three years.

This property is located as near the center of the city as any you can think of, and someone will buy and make money, is my prediction, and someone will say as many have in this growing city of fine schools. As stated, this property joins the city school grounds, and the T. P. I. state school is due north of this property, and although the latter school is young it is said to be now one of the best institutions of learning in the South. So with all these advantages, I appeal to your financial judgment to act quick on this, and you will be glad you did.

FARM OF 60 ACRES FOR SALE

Sixty acres located 5 miles out on the Sparta pike, near the Antioch Church of Christ and the new consolidated school building and Goolsby grist roller mill, I think one of the best places in this county for a good country store, good people all around it, a good class of farmers. Place has good well, some fruit trees, and the houses practically new. You can buy this property for \$3,500, half cash and terms to suit you. If this sold buyer will have to act quick.

Your Dollar's Opportunity

Your dollar's opportunity is now, today! Set it to work for you. Give it the task of multiplying itself. In doing so it will perform its part in the world affairs.

Every man's money should be making use of this opportunity. Farmers, for instance, can not only feed the world; through businesslike handling of their farms and businesslike handling of their incomes they can help to develop the world.

Thrift Is Patriotism

Saving is a form of serving. It is one of the biggest forms of national service—service to your country. Our first president said, "Economy makes happy homes and sound nations."

The way to start right is to start right now! Saving is as much a habit as spending or putting things off. Once formed, it is easy to continue. But unlike other habits, it is a good habit.
